00 —
PROFILE

Front-End Developer with 3+ years shipping responsive, content-managed websites for clients across fintech, iGaming, and digital agencies. Deep WordPress and Elementor expertise paired with modern JavaScript, React, and an eye for design — known for clean handoffs, clear communication, and work that holds up in production.

01 Employment *history*

2022 — PRESENT

Junior Webmaster

JAN 2025 — PRESENT

IGAMING Olybet · Tallinn, Estonia

- Maintain and evolve WordPress and custom CMS platforms powering Olybet's public web properties.
- Ship feature updates, performance optimizations, and security patches across multiple regional sites.
- Partner with product and marketing teams to deliver UX improvements informed by analytics.

Web Development & Administration Manager

APR 2024 — SEP 2024

FINTECH smeGo · Tallinn, Estonia (Hybrid)

- Owned end-to-end front-end development of the marketing site using WordPress and Elementor.
- Administered site operations, plugin architecture, and ongoing performance optimization.
- Translated stakeholder requirements into delivered features and managed iteration cycles directly with clients.
- Resolved production incidents quickly to maintain uptime and a polished client-facing experience.

Junior Web Developer

MAY 2022 — SEP 2023

AGENCY Logic Technologies OÜ · Tallinn, Estonia

- Built responsive front-ends in HTML, CSS, JavaScript and React for diverse agency clients.
- Developed PHP back-end logic; integrated WordPress, Shopify, WooCommerce, ACF, and MailChimp.
- Configured Google Analytics and implemented on-page SEO with Yoast and Search Console.
- Produced visual assets in Figma, Illustrator, and Photoshop alongside development work.
- Owned full project lifecycle — requirements, design, build, QA, and client handoff.

02 Selected *projects*

LIVE ↗

RaeKoss

2024 · [RAEKOSS.EE](https://raekoss.ee)

Solo end-to-end build — design through deployment

- Wired live API data into an immersive WordPress front-end with custom PHP solutions.

Femmes Digitales · AWITA

2023 · [FEMMESDIGITALES.AZ](https://femmesdigitales.ee)

Mobile-responsive views and the AWITA sub-page

- Built dedicated sub-page from scratch under direct client communication and tight deadlines.

Asan Imza

2023 · [ASANIMZA.AZ](https://asanimza.ee)

First production WordPress build

- Mastered ACF and PHP templating so the client could manage every page independently.
